Write the agreed contact route and expected date. If no date was given, ask. Do not assume that no news means a normal result. Seek care when you need it; do not wait for this list.

What am I waiting for?	Who arranges / reviews it? Contact route	Expected by / when to ask	What happened? Date / next step / closed

Close an item only when you know what happened or have an agreed next step. If a date changes, record the new date and who gave it. Keep the original appointment sheet or letter.
